

IN-ROOM DINING MENU

JUST WHAT YOU'RE LOOKING FOR

A MESSAGE FROM THE KITCHEN

As part of Fairmont's commitment to environmental stewardship, this menu contains locally sourced, organic, and sustainable products. All cuisine is prepared without (artificial) trans-fat.

The abundance of food products in Mexico is supported by being one of the world's most agriculturally rich countries. This enables our chefs to purchase more than 70% of our food from local producers.

Our country boasts some of the world's finest products, from avocado or local chaya to everybody's favorite tacos and tequila. We proudly serve and source sustainable seafood options through our partnership with local fishing and other conservation programs.

My chefs and cooks care by bringing the freshest ingredients to you and your family. Fairmont Mayakoba is also home to some 5,000 indigenous Melipona bees that thrive here in this beautiful region and reside in our Fairmont Spa. The bee's honey is of the highest quality globally; it has been used medicinally in the region by the ancient Mayans.

Should you have any special requests not listed in the menu or for dietary requirements, kindly call in-room dining, and we will be pleased to do our best to meet your needs.

Sincerely,

Daniel Noguera
Executive Chef
Fairmont Mayakoba
