

HOW TO MAKE YOUR STAY MORE SUSTAINABLE

Dear Guest, help us create an unforgettable and sustainable experience for you by following these recommendations:

- 1. Respect for Wildlife:** Maintain a safe distance from wildlife and avoid feeding or interacting with them. Respectful observation helps preserve their natural behavior and well-being. Ensure that doors are securely closed.
- 2. Waste Management:** Use the waste containers provided at the resort and separate waste as best as you can.
- 3. Reduce Food Waste:** At buffets, taste the food before serving yourself. Take small portions to avoid overfilling yourself and wasting food, which also helps reduce CO2 emissions.
- 4. Responsible Water Use:** Save water by turning off faucets while washing your hands or brushing your teeth. Consider reusing towels and linens during your stay and report any leaks immediately.
- 5. Energy and Resource Use:** Turn off lights, fans, air conditioners, and electronic devices when not in use. Take advantage of natural light and ventilation systems. Keep air conditioning at 24°C and close curtains when you leave to prevent heat from entering.
- 6. Participate in Tours Sustainably:** Follow guide instructions during tours and respect the rules of archaeological sites and protected areas. Stay on marked paths to avoid damaging the ecosystem.
- 7. Support Local Community:** Choose products and services from local providers and support community initiatives that promote sustainability and conservation.
- 8. Education and Awareness:** Participate in educational activities offered by the resort to learn more about local wildlife, flora, and history. Awareness is key to conservation.
- 9. Eco-Friendly Transportation:** Use the resort's transportation options or consider eco-friendly transportation options, such as electric vehicles, to reduce your carbon footprint.
- 10. Promote Good Practices:** Share your sustainable practices and experiences with other guests and encourage friends and family to follow the same path.
- 11. Respect for Local Culture:** Respect local traditions and customs during your visit, including behavior in sacred areas and interactions with the community.
